Katherine Brainard

Office Hours:

Science Hall 247

Monday and Thursday 9:30am - 10:30am

Tuesday 1pm - 2pm, 2pm - 3pm by appointment

Email: brainark@newpaltz.edu

How to Get Help

Drop-in Office Hours

Appointment Office Hours

Email: 1 business day response time

Course Policies

Class will be **interactive** - please bring your laptop!

If you don't have regular access to a laptop:

- Contact Kaitlin Hoffman (hoffmank4@newpaltz.edu) to coordinate a **loaner laptop** for the semester; there's a limited number of these, so reach out sooner rather than later

Outside of class, **SH260** has computers you can use for working on assignments.

Coding Prerequisite Form

Needed to access Brightspace

Course Policies

Course material is only available via this course

If you:

- Ask ChatGPT
- Ask Google
- Watch a youtube video
- Ask stackoverflow

Answers will be **missing important context**

- Supplement course materials = good
- Instead of course materials = bad

Course Policies

tl;dr: No LLMs for checkpoints

Why:

- Code for course $\neq$ code LLMs are good at
- Point of checkpoints is to practice material from course

Checkpoints **must** use material from course

Course Policies

Syllabus posted on Brightspace with more details/as a reference

Grade Breakdown:

20% Weekly Checkpoint Code Reviews

20% Final Project (partly built up through the weekly assignments)

30% Midterm Exam (open book, closed computer, during class time)

30% Final Exam (open book, closed computer, see final exam schedule)

Large Project: Buddy System

If you already have a project buddy, great!

If not: there will be time at the end of class today to find a buddy

- Groups of up to 3 allowed, but they are more work

Each week:

- Write code (individual)
- Review code (swap with buddies)

Group brainstorming is allowed (and encouraged!)

Project Grading

Checkpoint Grade: Process, ie Code Reviews

- Selecting code for review
- Leaving substantive comments
- Responding to comments

Multiple buddies = Multiple Independent Reviews

Final Project Grade: Functionality

- Fixing everything from feedback
- Adding on to course topics from outside resources

Project Grading

Checkpoints:

- Recommended completion date (Brightspace will show this as 'due date')
- **Required** test suite
- Must respond to feedback from previous checkpoint (available 4 days after submitting)

Caution: Do not Fall Too Far Behind

Questions?

Checkpoint 0.5: Email me your Project Group

Must be completed by **Thursday** (next class)

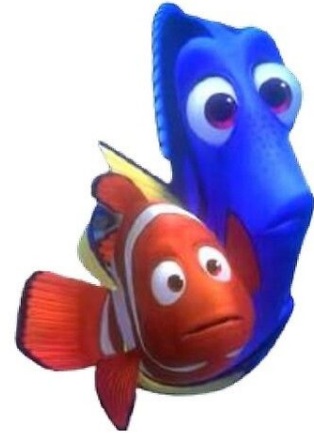

Groups must be 2-3 people (recommended: 2)

Email me (brainark@newpaltz.edu)

- your name
- your buddy/ies
- a team name

CC everyone on the email

You'll need a buddy for Checkpoint 1

Do you have
your project buddy?

Project Work Time

1. Find a buddy!
2. Start on Checkpoint 1 (on Brightspace)
 - Configuring new software is a fraught process, get through as much of this as you can in class in case of issues
